Special instructions for reporting on certificate:

Instructions

- **Seed lot preparation prior to sampling:** Seed lot must be a finished product as it is going to be in the final container. The lot must be properly identified and the amount quantified with total weight in lbs. or Kg. and number of bags. The lot can be piled up to 2 pallets high and all four sides of the pile must be accessible for sampling. **If the lot is not SET DOWN AND READY for sampling, the sampler cannot sample and you may be charged a show-up fee.**

- Send this form to the OSU Seed Lab.
