

DOWNLOADING PDF REPORTS

Note: If at any point in the process buttons do not populate after selecting from a drop down menu, try hitting the “Tab” key on your keyboard.

Though test reports are typically sent in the mail, paperless copies can be downloaded directly from Online Services. These reports can be found using the lab-assigned test number for your sample or by searching using a desired date range. This allows you to view reports in real-time as they are reported by the administration unit, and eliminates time waiting for reports in the mail.
